TIME MANAGEMENT

Why is time management important

Reduces the fear of failure.

Better work-life balance.

Reduces stress & anxiety.

Higher levels of productivity.

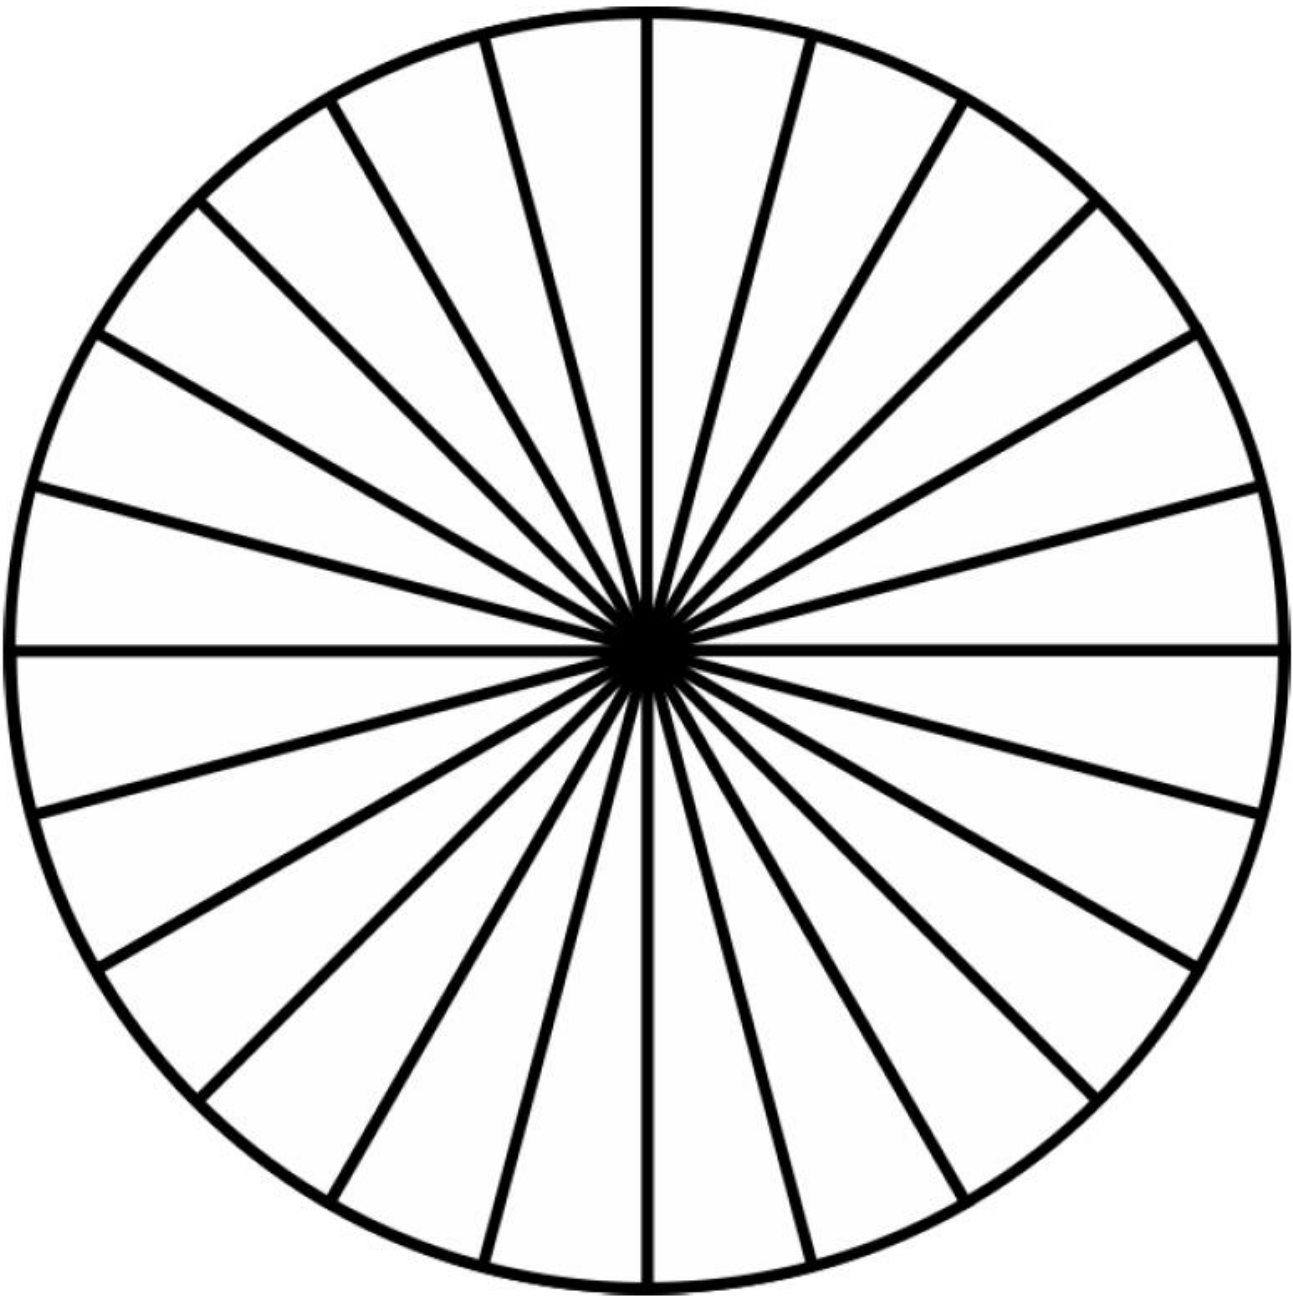

Reduces completing tasks at a mediocre level.

Preparation improves your confidence.

Preparation makes the day run more smoothly.

Fill in the circle with everything you do in a day including the total number of hours spent on each daily activity
Example: classes, studying, sleep, fitness, work, family, personal care, eating, transportation, relaxation/hobbies, etc. Also include wasted hours.

Total number of hours per week = 168 hours

Time Management Worksheet

List your top 10 life priorities in order from most to least important:

How do your Priorities match up to how you spend your time each week?

What do you need to adjust in your weekly schedule to better match your life priorities?

List any additions you want to add to your weekly schedule:

What do you spend time on that you will remove or reduce in your weekly schedule?

Now, create your new ideal schedule
